

**ASIEL JOAB ROSILES GARCÍA**  
**Junior Frontend Developer | React + UX/UI**  
**rosiles.garcia.asiel@gmail.com**  
**LinkedIn: Asiel Rosiles**

**PROFESSIONAL PROFILE**

Junior frontend developer with knowledge of React and libraries like Redux, complemented by responsive web development, interface design, and user experience. I stand out for being self-taught and for integrating AI into my workflows.

I'm looking to join a team where I can contribute to the development of scalable, accessible, and visually appealing digital products.

**TECHNICAL SKILLS**

**Frontend:** HTML, CSS, JavaScript, React (Functional Components, Hooks, React Context & Redux, automated deployment, and more), Sass, VS Code, Git, Git Bash, GitHub, Yarn, Vercel, Vite.

**Backend:** Firebase, Firestore, Firebase Authentication

**UX/UI Design:** Figma, sketching, user flows, wireframing, prototyping, accessibility, design patterns, interaction design, motion & microinteractions, design thinking.

**AI:** Prompt engineering, efficient use of AI (ChatGPT, Claude, Google AI Studio, Opencode).

**PROFESSIONAL EXPERIENCE**

**Design and Marketing Assistant. SATECH Satellite Tracking.**  
León, Guanajuato | March 2025 – September 2025.

- I redesigned corporate website interfaces applying UX/UI and responsive design principles.
- I designed wireframes and high-fidelity prototypes in Figma.
- I realized user research, market analysis, and benchmarking to make design decisions.
- I designed and developed digital signatures in HTML, iterating to ensure compatibility across different email services.
- I performed display and functionality testing across different email services.

**PERSONAL PROJECTS**

**Web Portfolio**

- I developed a first portfolio with basic HTML and CSS.
- I updated my portfolio: converted the basic code into a modern React project using Opencode.
- I rigorously guided the AI, generating the AGENTS.md with the specifications, requirements, and necessary limits.
- I supervised the AI's efforts, verifying everything on my own.

**Web design and responsive design with HMTL and CSS.**

- I put my general HTML, CSS, and responsive design knowledge into practice.

**E-commerce development with database and Firebase authentication**

- I developed an e-commerce application in React.
- I created a database and authentication methods with Firebase service.
- I implemented state management with Redux.
- I converted the application into a Single Page Application using React Router.
- I used Sass for more organized styles.
- I developed a responsive interface that adapts to different devices.
- I deployed the application through Vercel.

**App prototypes and designs (UX/UI)**

- Wireframes for "SingOut" app.
- Wireframes for "Eat&Shopping" app.
- Wireframes for a web catalog for a small real Mexican company.
- App prototype.

**SOFT SKILLS**

**Self-taught and continuous learning:** I learned and continue learning development, design and AI tools.

**Problem-solving:** I identified and fixed bugs in real projects.

**Collaboration:** I worked alongside others coworkers on web design and marketing projects.

**Adaptability:** I participated in varied projects (web applications, signatures, prototypes).

**Attention to detail:** I made fine adjustments in HTML/CSS code to ensure compatibility in electronic signatures.

**LANGUAGES**

Spanish: Native.

English: B2 (currently improving).

**EDUCATION**

**Bachelor's Degree in Design, Animation, and Digital Art.**  
Universidad Tecnológica de México (UNITEC). 2022 – 2025.

**CERTIFICATES AND COURSES**

Complete React Developer w/ Redux, Hooks, GraphQL and more course. Zero To Mastery (2025 – in progress).

Complete Web & Mobile Designer: UI/UX, Figma and more course certificate. Zero To Mastery (2024).

User Experience Designer course certificate. Fundación Carlos Slim (2024).z

**VOLUNTEERING**

Active member of a local church, participating in social activities, biblical teachings and the worship group.

Committed to the community with a focus on leadership, dedication and passion.
